PARENT CONTACT

Thank you to the parents who so willingly come in and chat wherever there are concerns with your child.

Please know that you are welcome to contact the school at any time. If there is an issue, we cannot fix it if we do not know about it. Please encourage your child to always tell the teacher on duty and then if it is not resolved to their satisfaction to report issues to the principal or office staff. The door is always open and we want students to feel valued, respected and safe at school at all times.

LOWER MACLEAY COMMUNITY OF SCHOOLS BUS

Due to the running expenses and maintenance costs of the community school bus there has been an increase in charges. The fee has been increased to \$5.00 per student. The lesser amount of \$2.00 is not sustainable and parents feel that this fee more

accurately reflects the value of the transport opportunity. As always, financial assistance is available to all families by request through the office.

EVERYONE STARTS SOMEWHERE

At Smithtown Public School we believe every young person has a gift or talent inside them and we want to empower them to shine. We have formed a partnership with the collaboration of Kempsey TAFE Education, Employment and Support Faculty, Wauchope TAFE Construction Faculty and Fastplast a successful local Port Macquarie business to connect young people, businesses and people from the world of work to inspire young people to reach their full potential.

TAFE, Fastplast and Smithtown Public School share a focus on creating sustainable futures for young people and enabling passionate and experienced people from the building industry to contribute to the beginning of a career story. Fastplast have made a considerable financial commitment to the project and delivered quality products for the construction. TAFE have provided the students, John Dunn-Smith, Ben Smith, Vance Natty, Kevin Kennedy and Hugo Traino all from the Kempsey area. These young men are learning on the job from their experienced TAFE teacher Joe Walsh.

Building a creative play space or the cubby house as the students prefer to call it, has provided an authentic experience with the ability to broaden the horizons and raise the aspirations of young people. Students had input into the design process and are extremely excited by the endless creative play opportunities the structure will provide for them in the fresh outdoors, far from digital devices.

Together the partnership will impact the lives of young people in our local area, by sharing experience, knowledge and passion to inspire someone else's beginning.
